AND RELATIONSHIPS

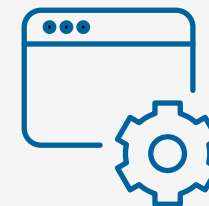

Advanced
Detection
and Analysis
Technology

Our anti-counterfeiting technology detects, analyzes and acts against possible infringements across the broadest range of digital channels

BROADEST RANGE OF DIGITAL CHANNELS

We cover the most digital channels – websites, marketplaces, social media and mobile applications – to give you maximum visibility into where and how your brands are being used or exploited.

DETECT, ANALYZE AND ACT AGAINST POSSIBLE INFRINGEMENTS

We don't just detect possible infringements; we give you tools to analyze the data and enable you to have the most effective enforcement strategy.

GLOBAL COVERAGE

We provide data on how your brand is being used online worldwide, so that infringing items do not escape detection regardless of geographic location.

Efficient Enforcement of Brand Infringements

We give you the ability to efficiently remove infringing products from marketplaces worldwide

BULK ENFORCE INFRINGING ITEMS

Our enforcement APIs work with a wide variety of marketplaces, which gives you the ability to enforce against infringing items in bulk and expedite their removal.

HIGHEST NUMBER OF SUCCESSFUL ENFORCEMENTS IN THE INDUSTRY

We create industry-standard best practices and work with global strategic partners across the globe to get you the best possible enforcement rate.

IDENTIFY AND ELIMINATE HIGH-VALUE TARGETS

We leverage leading-edge technology and integrate multiple data sources, including proprietary streams, to identify and eliminate high-value targets.

Executive Dashboards and In-Depth Reporting

Our visual dashboards and in-depth reporting provide valuable insight into your anti-counterfeiting efforts

DYNAMIC, VISUAL DASHBOARDS FOR QUICK INSIGHT

You can quickly see how your program is doing using dynamic dashboards that give you key metrics.

IN-DEPTH REPORTING FOR KEY SUCCESS METRICS

We provide you with all the data you need to get a detailed look at who your top infringing sellers are, their geographies and your enforcements.

INTELLIGENCE TO IDENTIFY HIGH-VALUE TARGETS

Our analytical reports help you identify high-value targets. This enables you to focus on the most important infringers for maximum impact.
