

Introducing

Markmonitor University Your Gateway to Learning

A dedicated learning platform built to help your team manage domains with confidence

For Additional Information, Contact Your Domain Management Team

Domain management has never been more complex

With thousands of TLDs, evolving security requirements, and growing portfolio demands, the people managing your domain name portfolio need more than just a strong registrar relationship. They need real, applied knowledge.

Markmonitor University is a structured learning platform built exclusively for you.

It covers domain fundamentals, DNS, SSL/TLS certificates, and more, giving your team the tools to work faster, make informed decisions, and manage your portfolio with confidence.

Complete a learning path and receive a personalized certificate to share within your organization or on LinkedIn. These certifications give your team a way to demonstrate domain expertise, whether for internal reporting, onboarding new hires, or personal development.

Markmonitor University is a unique educational offering within the domain industry, reflecting our commitment to your long-term success.

4

Core learning areas, from DNS to portfolio strategy

60

Day complimentary trial for Markmonitor clients

2

Certifications available now, with more in development

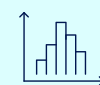

On-Demand

Self-paced learning that fits the working day

What you and your team **will learn**

Domain name fundamentals and how the DNS works

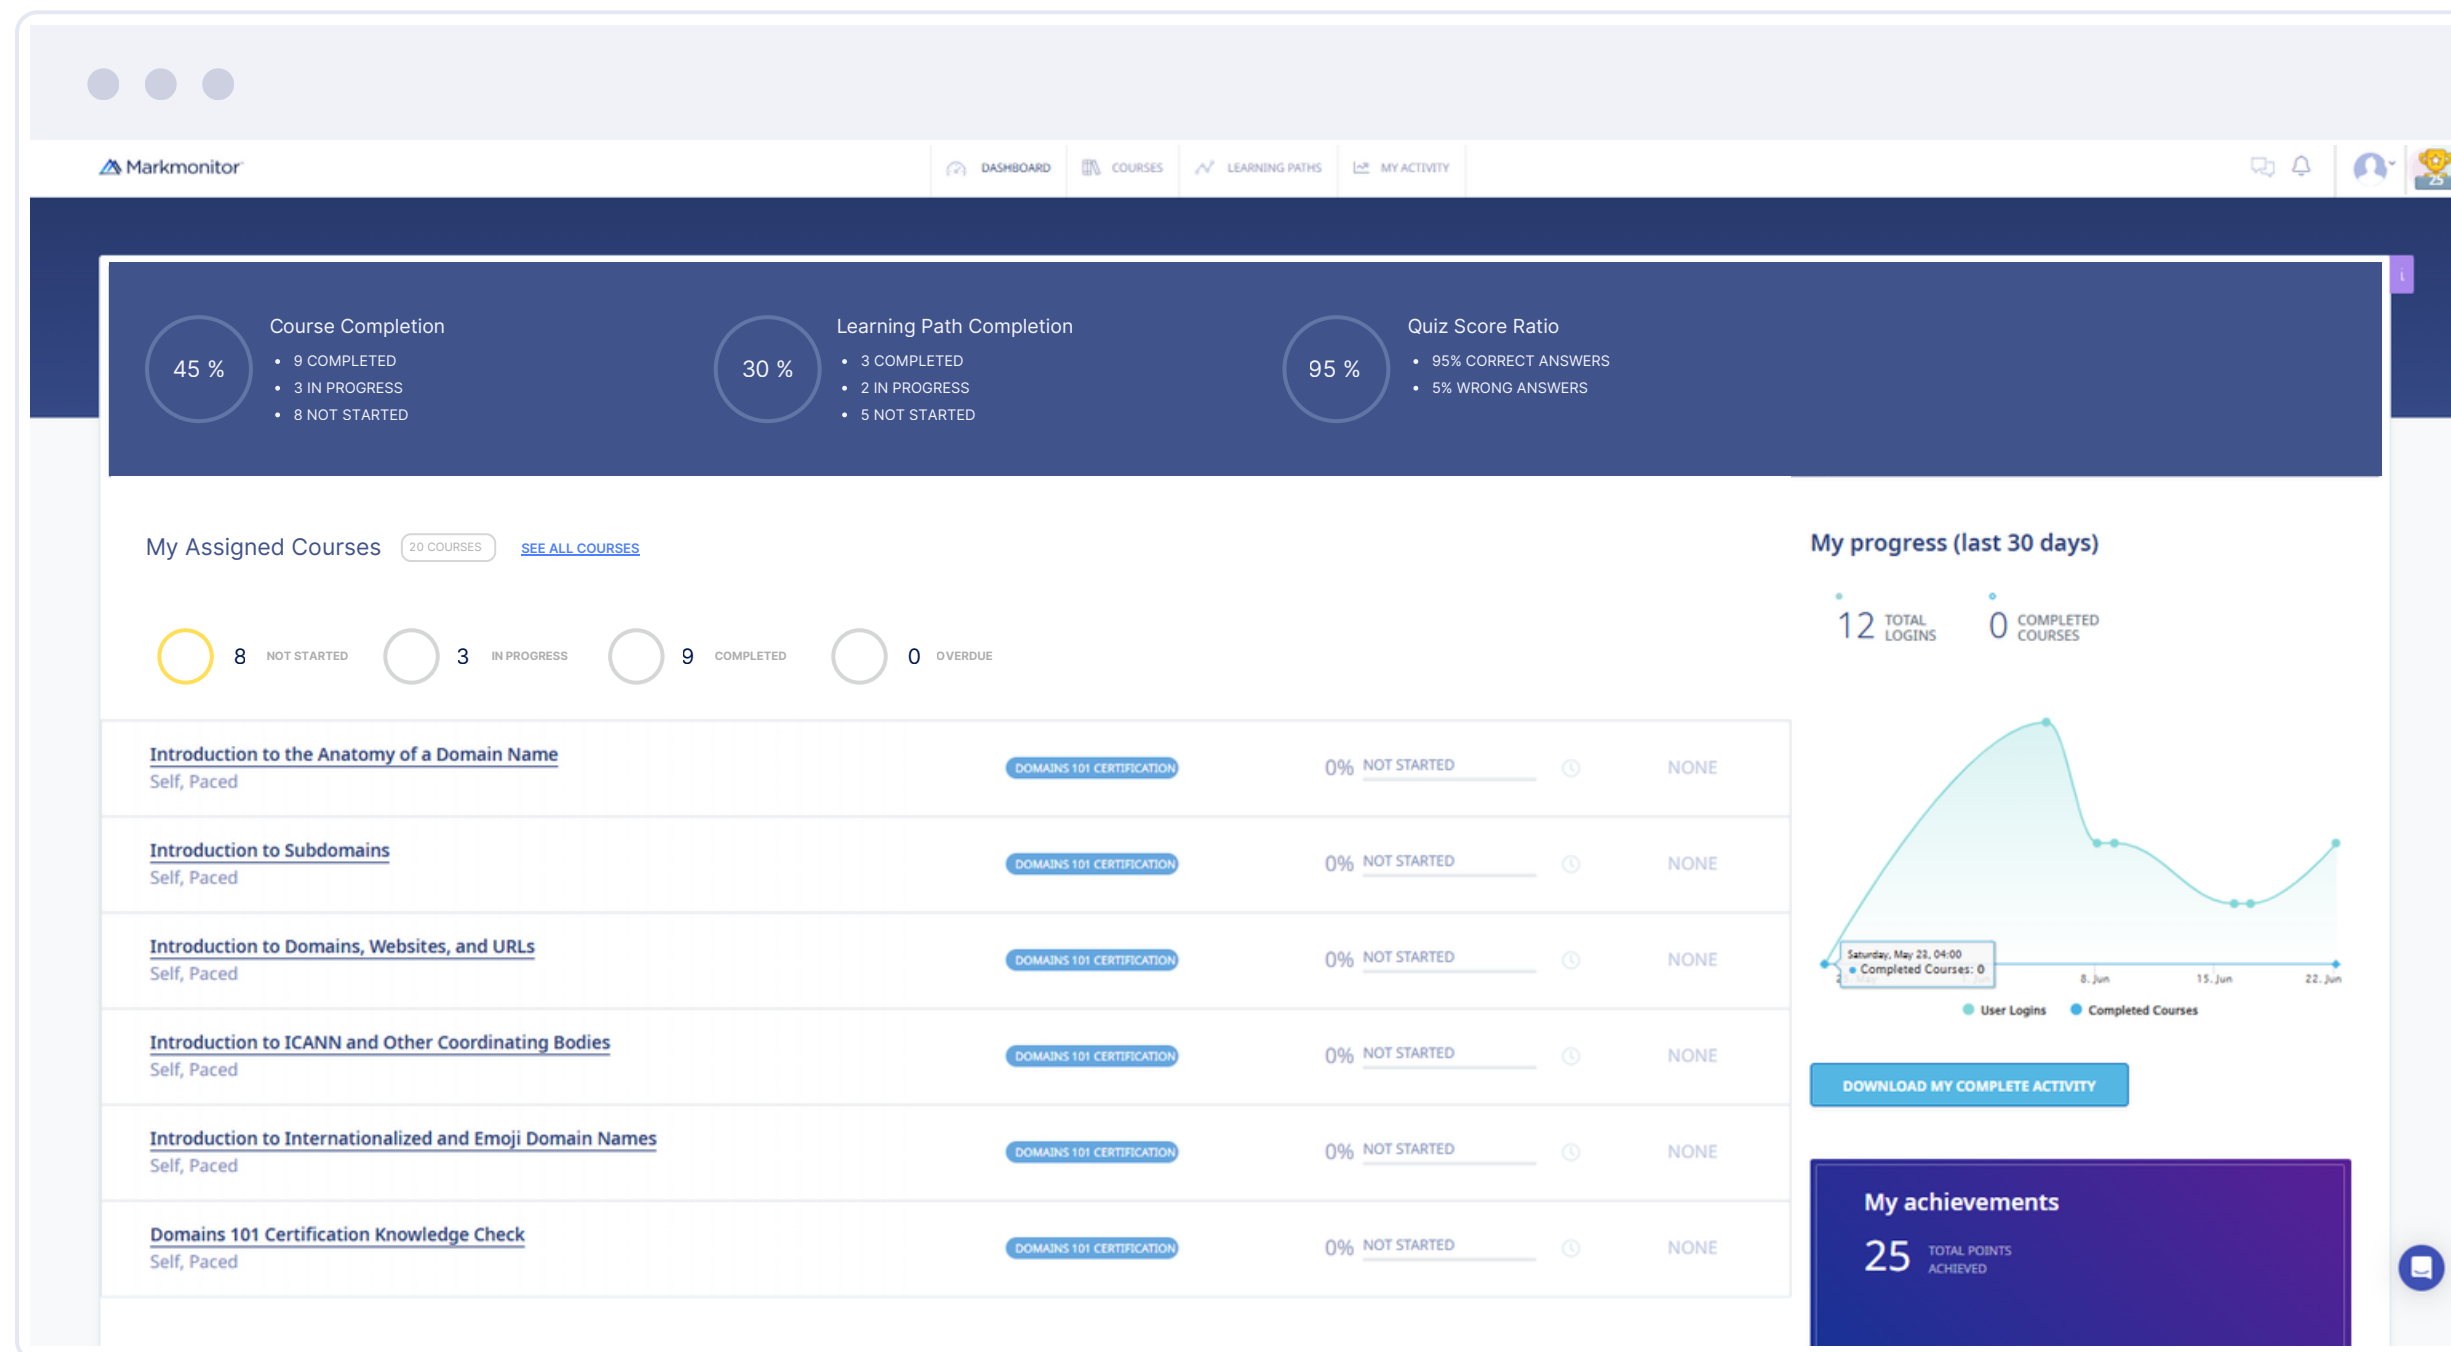

Domain strategy and portfolio management

DNS troubleshooting

SSL/TLS certificates

Built around how your team **works**

Self-paced

Courses are available on demand, so learning fits around the working day rather than a fixed timetable.

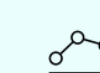

Strong from day one

New team members can build foundational knowledge from their very first day on the platform.

Fill the gaps

Existing teams can close knowledge gaps whenever it suits them, without waiting on a scheduled session.

Track Progress

Each learner sees their assigned courses, completion rings, quiz results, and certifications earned in a single dashboard.

Get started today

Markmonitor University is available to all Markmonitor clients with a complimentary 60-day trial, including access to Domains 101 content. Each account receives one user license for the duration of the trial.*

60 Days

free of charge
