✓ **Mitigate Risk to Your Valuable Domain Names**

- CompuMark's Domain Watch Complete provides the continuous, global coverage needed to effectively manage the risk posed by online infringement, cybersquatting and other threats. Watch up to five brands, with convenient automatic renewal and email delivery.

✓ **Legacy gTLD Domain Name Watch Coverage**

- Remain informed with weekly coverage on your domain names. We leverage our comprehensive gTLD database, helping pinpoint names identical to or closely similar to the watched brand or domain name. Coverage includes: .aero, .biz, .cat, .com, .coop, .info, .mobi, .name, .net, .org, .pro, .travel, .us.

✓ **New gTLD Watch Coverage**

- Get alerts when a watched name is registered as a new gTLD, so you can take swift action to prevent potential revenue loss and protect your brand's reputation.

✓ **ccTLD Watch Coverage**

- Receive reporting on exact or closely similar matches that could be cases of infringement of country code TLDs for more than 240 countries.

✓ **gTLD Domain Typosquatting Watch Coverage**

- Stay notified of misspelled variants of domain names that may pose a threat. This insight can help in assessing risks or to inform legal action to defend brand assets.

✓ **Keep Tabs on Competitors**

- Domain Watch Complete is also a powerful tool for monitoring competitors' online activities. Domain registration information can reveal valuable market intelligence.
