

Domain Name Watch

Defend Your Digital Presence

The continuous growth in domain name registrations - and the risk of 3rd-party infringement - has made protecting your brand and managing your domain portfolio more challenging, and more critical, than ever.

Markmonitor Domain Name Watch, powered by Probe.net, delivers **comprehensive monitoring to identify, analyze, and mitigate potential threats** before they can impact your business.

With broad coverage and advanced detection capabilities, you gain unmatched visibility across your portfolio, eliminating blind spots and enabling proactive protection for your most valuable online assets.

Markmonitor's Domain Watch

Powered by probe.net

Welcome to your dedicated domain monitoring dashboard. This login is separate from the Markmonitor customer portal. Please use your Domain Watch credentials, not your web portal login.

If you are unsure which credentials to use, or don't have them, please contact your Markmonitor account manager for assistance.

- 2 Proactive Protection**
Stay informed via our subscription solution so that you can take swift, decisive action to protect your brand.
- 3 Personalized Service**
Benefit from a Markmonitor Account Representative who understands your brand and priorities.
- 4 Mitigate Risk**
Watch one or multiple brands with automatic subscription renewal for uninterrupted coverage.

A Look Inside

Gain complete oversight of your domain landscape to detect threats early, mitigate risks, and safeguard your brand.

The screenshot displays the Markmonitor Corporate Subscription interface for a domain scan of 'markmonitor'. The browser address bar shows 'https://watch-markmonitor.com'. The page title is 'Markmonitor Corporate Subscription / Domain scan: markmonitor'. The 'Overview' section provides a summary of the scan results:

- Subfolders:** Domain scan: markmonitor (5,260), Inbox (5,260), Trash (0).
- Items flagged:** Green flags (2), Yellow flags (0), Red flags (0), No flags (5,258).
- Summary:** 5,260 Domains in inbox, 0 Monitors with alerts.

Below the overview, a table lists the scans connected to the folder:

Scans connected to folder	Scan type	State	Frequency	Last run
 markmonitor	Domain	Done	Weekly	2025-09-01
